

Welcome to the Live Stream Studio

Now more than ever it's so vital that we stay connected with each other and communicate with our colleagues and teams. We want to bring you an alternative way of hosting an event that allows you to connect with your team and deliver Hybrid Events- virtual meetings and conference that are engaging, interactive and most importantly safe.

What exactly is a Hybrid Event?

1. A Hybrid Event is simply an event that is online or virtual as opposed to having a physical conference where everyone attends in person.
4. We can guarantee an exceptionally high-quality connection and sound provided by the team at All Event Productions who will be on site to manage the technical aspects. Your event will be seamless and ultra-professional with a wide variety of backdrops suited to your event.

What are the benefits of a Hybrid Event?

1. Physical conferencing may be a challenge for larger events due to social distancing measures currently in place. Hybrid events can range from small question-and-answer sessions to large-scale conferences with hundreds of attendees.
2. Delegates to the virtual event can experience the event and its content online rather than gathering in-person.
3. Our Hybrid Event set up will allow for up to 4 delegates to present live on screen from The Heritage and share presentations with viewers.
5. In this post Covid world we are trying to adapt to the 'new normal' lots of companies are concerned over hosting events especially if there are potentially 100's of attendees. Instead of cancelling the event completely a Hybrid Event allows you the host your event in a safe and efficient manner by experts who can guarantee the smooth running of the event and the health and safety of delegates.

How It Works

Pre-Event Planning - On Site or Online meeting to plan presentation material and Backdrop information, photos and branding. All details of your transmission method such as Zoom, Teams, Youtube Live etc. will be finalised and your attendee's invitations processed.

What we Offer

A safe, spacious, luxurious location to host all types of online presentations and events from a purpose-built Studio fitted with broadcast standard production and streaming systems. The studio space can host 4 presenters simultaneously while maintaining social distance. Additional space is also available in 5 adjoining breakout rooms for additional presenters if required. as well as our Ballroom for live socially distanced events

On the Day

When you arrive on site your team will be met by our team and shown to the studio area.

The Hotel's hospitality staff will look after your comfort and safety while you are with us and the Studio Technical Team will guide you through the process of presenting to your audience, and take care of all the technical requirements to transmit your slide and video content as well as live camera mix so you can concentrate purely on delivering your message professionally.

Live Event

Enough time will be provided for a rehearsal and 10 minutes prior to the live broadcast, all participants and technical staff will be in place, ready for the live transmission. This will be similar to your normal presentations, but run with the online audience in mind to ensure they feel connected to both you and their colleagues.

Q & A

Question and answer sessions will be run either as live questions from the online audience or through a moderator on the live chat facilities on the platforms.

Recording

All events can be recorded for use afterwards in further training or communications, if required

Hybrid Events

Larger Hybrid Events can be easily catered for in the Heritage Hotel. Our large Ballroom, which is situated below the Studio, can cater for up to 200 guests with 2 metre social distancing. Live events can be held comfortably in the Ballroom and simultaneously streamed through the Studio to an online audience.

In addition to the Studio Space which can cater for 4 presenters with 2 metre social distancing, additional presenters or participants can be accommodated in 5 adjacent boardrooms which can be connected live to the Studio when required.

th running of the event and the health and safety of delegates.

To make an enquiry about hosting your own Hybrid Event in our Studio then please forward your enquiry to Orla Delaney odelaney@theheritage.com and we can discuss options with you.

For Technical Queries please contact Martin Cullinan - All Event Productions 087 255 6829; email martin@alleventproductions.com
